REPORTING PROTOCOL

Equip your staff with appropriate reporting protocol and trauma-informed victim response.

CLIENT TESTIMONIAL - THOR OSTEOE, COO

"Our company provides a wide range of products and services in hundreds of travel and leisure venues across North America. We asked Rosie to provide our operations leadership team with initial familiarization and training on the growing threat posed by Human Trafficking. Rosie has spent countless hours researching and meeting with trafficking experts in government, law enforcement and private sectors. She provided an informative, impactful presentation that discussed the trafficking epidemic, what to look for and how to align our response with established law-enforcement protocols. I would highly recommend Rosie Cataldo for any organization wanting to increase their knowledge and ability to respond appropriately to the criminal human trafficking activity."
